OCTOBER 9 WILL BE "FIRE PREVENTION DAY" IN OREGON

Governor's Proclamation Sets
 Aside Anniversary of Great
 Chicago Fire

The anniversary of the disastrous Chicago fire of 1872, October 9, has been set aside by Governor Withycombe as "Fire Prevention Day" in Oregon, by proclamation issued today. In consideration of the fact that fires in this state last year destroyed \$4,000,000 worth of property and that the per capita loss in Oregon is far in excess of the United States as a whole, Governor Withycombe urges especial attention in the matter of preventing fires.

The governor urges in his proclamation that all possible efforts be made through the home, schools and factories to prevent fires and that on "Fire Prevention Day" all turn a hand to cleaning up rubbish heaps and fire traps that might cause a fire later.

The proclamation in full follows: Whereas, it is becoming ever more evident to all of us that the great losses which we are constantly sustaining from fire are, in a large measure, preventable through proper precautions; and

Whereas, there is a growing tendency to study the problems of fire destruction with a view to combatting it scientifically; and

Whereas, we of Oregon should be especially interested because of the great losses locally sustained, which bring our estimated per capita annual fire loss far in excess of the \$2.32 per capita loss of the United States as a whole, and this in comparison with a per capita annual loss in European countries of less than fifty cents; there having been in Oregon in the year 1914 over \$4,000,000 worth of property destroyed by fire; and

Whereas, it is fair to believe that by giving the matter proper thought and precautionary attention our losses may be measurably lessened, and as interest in the entire problem can well be focused through setting aside a day each year when it shall be especially considered, as is done in many other states;

Therefore, I do hereby designate October 9, 1915, as Fire Prevention Day and I urge that effort be made to organize our State in an efficient campaign against the common enemy of all—unregulated fire. And it would seem to me well worth while that, so far as possible, instruction concerning the dangers of fire and the methods of fire prevention be given in the schools on that day and on other days as well. And I would further urge that the Fire Prevention Day individuals and communities undertake domestic and municipal housecleaning and inspection, to the end that inflammable rubbish may be removed; that heating appliances and chimneys be examined and placed in safe condition; that the occupants of hotels, factories and institutions housing numbers of people be safeguarded; that fire drills be established and operated; and, in short, that every encouragement be given to a healthy public preparation for the lessening of our fire losses, through intelligent and adequate fire prevention.

In Witness Whereof, I have hereunto set my hand this twenty-second day of September, Nineteen Hundred Fifteen.

JAMES WITHYCOMBE,
 Governor of Oregon.

Governor Withycombe Would Prepare for War

Portland, Ore., Sept. 21.—In his address before the Portland Transportation club at a luncheon today, Governor Withycombe urged a greater preparedness for national emergencies.

The governor took his text from a published statement that two Portland school principals had discontinued the practice of having pupils march to and from their classes, the theory being that it fostered militarism.

"Are we going to drive all patriotism from our schools?" the governor demanded. "What are we coming to anyway? I deplore the awful conflict in Europe, but we must be prepared to defend ourselves. If we smother the spark of patriotism in the schools we will detract from the training of our children in their preparation for citizenship."

Soap is Bad For the Hair

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali and this dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is just ordinary multifid coconut oil (which is pure and greaseless), and is better than soap or anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get multifid coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

Petrograd Workmen Are In Sympathy With Duma

Stockholm, Sept. 21.—Numerous arrests were made by the Petrograd police Sunday, but the majority of ammunition workers who struck because of the duma proroguing are reported to have returned to work.

Several strike leaders, who are believed to have been bribed by Germany, will probably be sent to Siberian prisons for their part in the labor troubles. The government, however, is disposed to be lenient toward the others.

Dissatisfaction which followed the summary dismissal of the duma last week caused the strike.

NATURE sometimes makes perfect things, but "processing" spoils 'em. A good-natured boy may be "processed" into a dern fool by the wrong education—an' tobacco can be spoiled similar.

Velvet Joe

The Smoothest Smoking Tobacco, VELVET, is naturally right. Its two years' ageing simply mellows and refines its natural qualities. The secret of its "no bite" is first, right tobacco; second, right ageing. 10c tins and 5c metal-lined bags.

Liggett & Myers Tobacco Co.

AUMSVILLE NEWS

Chas. Crane and family returned home from the hopfield Tuesday.

H. P. Jensen had the misfortune to get his back hurt Wednesday while shoeing a horse.

Mr. and Mrs. Harry Prunk and little son, Earl, returned from the Wood Camp Friday.

ADMISSION 10c

MOUNT ANGEL NEWS

College boys are beginning to come thick and fast and a large attendance is looked for this year.

John Pfaff, Jr., will sell his personal property at public auction on October 1 at his place one mile north of town.

A. L. Cannon has moved his second-hand store to the Back building formerly occupied by Mr. Back. Mr. Cannon is a rustic and is naturally working up a good trade.

G. A. Gillis, the miller at Monitor, has just completed a large warehouse near the depot at Monitor. Section foreman of the W. V. S. railway is presently engaged in building a side track to the warehouse.

Miss Vivian Browne of Silverton, and Miss Velma Whiteaker of Independence, were visiting the academy Wednesday. The latter will attend the academy during the coming term.

Mr. and Mrs. Alfred Oswald, Mr. and Mrs. B. J. Welton and Miss Francis Bronkey were enroute to Monitor Sunday. Not much success in the report and the excuse is because of the rain.

Paul Fuchs, T. L. Ambler, Otto Hassing and Mr. Boscher drove to Independence a few days ago to see the hop picking machine at work in the Horst Brothers yard. The machine is the invention of Mr. Hurst.

Miss Mina Loken left last Sunday for Webster, S. Dak., to open a term of school after having spent her vacation at the Gottenberg home, and at the exposition cities. Her sister, Emma, left a week earlier for Faulkton, S. Dak., where she is engaged in teaching.

Mrs. M. Oswald and son, Otto, returned this week from California, after a tour of several weeks in their new Studebaker. They visited the exposition cities and in different parts of California. They went the entire distance without accident and had a most pleasant time.

So far as any report reaching this office this season is concerned, W. L. Yarrow, although handicapped by the loss of one arm, made the best record as a yard picker, at the S. Christian yard near here. He is said to have picked 12 boxes in one day or 700 pounds in two and one-half days. His record was at the top all through the season.

F. H. McCarther, of Portland, an old time newspaper man of Oregon, was in town Wednesday and naturally made this office a pleasant visit. Mr. McCarther was formerly engaged in the printing business in Woodburn, but is now the ice man in Portland. Scidmore does a printer ever change his vocation and make a success of his new undertaking, but that is what Mac has done.

Ed Bronkey and son, Leo, returned this week from Uniontown, Wash., where they have been working during harvest and threshing. Mr. Bronkey has been there every season for the past eight years and worked on the same engine. He says there were 14 men from Mt. Angel working in that vicinity this season.

Another very pretty wedding was solemnized in the church Tuesday morning when Mr. J. S. Klinger, a well known young business man of this city led before the altar Miss Marie Stupfel, a charming young lady of this city and daughter of Mr. and Mrs. A. Stupfel.

Mr. and Mrs. Klinger need no introduction in this vicinity. They are natives of Mt. Angel and held in high esteem by all who know them.

Rev. Father Dominic performed the beautiful ceremony in the presence of a large congregation of relatives and friends.—Tribune.

Capital Business College
 Attracts Outside Students
 The Capital Business college is one of the city's institutions that is bringing many students to the city for the winter months. Opening for the fall term last Monday, the attendance shows an increase of 14 per cent over that of one year ago. As the course is so arranged that students may enter at any time, Principal W. L. Staley regards this increase at the opening as indicating a much larger attendance next month.

Among those attending from a distance are:
 Arthur Sasser, Mitchell, Ore.
 John Sasser, Mitchell, Ore.
 R. W. Mattson, Marshfield, Ore.
 Catherine Baker, Lane county.
 Winnifred Rose, Independence.
 Sarah Brewer, Chemawa.
 Norma L. Harper, Junction City, Ore.
 Gladis Salisbury, Turner.
 Mary Foster, McMinnville.
 Grant Clark, Benton, Ill.
 Ora Fenton, Independence.
 Rose Heywood, Hillsboro.
 Ross Aline, Woodburn.
 Walter L. Smith, Independence.
